

# Join us for the Anglian Agroforestry Farms Open Weekend 2021

celebrating the growing community of agroforestry farms in our area

**Fellows Farm, Fobbing Farm, Shimpling Park Farm, Maple Farm Kelsale, Wakelyns and Whitehall Farm**  
**will be open for visitors**

**Saturday 1st - Sunday 2nd May 2021**

Each of us will be welcoming pre-booked visitors as explained below

**You must not come unannounced, not least because we have to manage things to comply with social distancing requirements.**

## Fellows Farm —IP13 7DF

Fellows Farm, part of London's artisan bakery e5 bakehouse, is a small organic farm with 17 acres of agroforestry: 8 lanes of trees at 24 m intervals. The trees are a wide mix of top fruit, nut and native broad leaf. Planted in late winter 2020 they've just made it through the year despite drought and voracious deer. The field is currently planted with a heritage wheat.

Open 2 May only. Pre-book by email: [benmac@e5bakehouse.com](mailto:benmac@e5bakehouse.com)

## Maple Farm Kelsale—IP17 2PJ

Maple Farm Kelsale started with 14 acres of agroforestry in 2014; now up to 100 acres in 7 fields in a two-row system with 24 metre wide alleys used as Silvoarable (arable crops between the trees) and Silvopastoral purposes (cover and range diversity for our laying hens).

## Shimpling Park Farm—IP29 4HY

We planted 50 acres of agroforestry in December 2020 with species that were sympathetic to the adjacent SSSI woodland. We're aiming for quality timber, boiler wood-chip and a wildlife corridor to and from our ancient woodland.

Open 1 & 2 May. Pre-book by email: [david@wakelyns.co.uk](mailto:david@wakelyns.co.uk)

## Whitehall Farm—PE7 3DR

Whitehall Farm has been certified Organic since 2008 with cereals, vegetables, fruit and areas managed for wildlife & biodiversity. The Silvoarable agroforestry combines fruit trees and cereals over 52ha (125 acres) making it the largest commercial agroforestry in the UK. Also enjoy the Harvest Barn farm shop and café with farm animals, great food and apple juice made from the agroforestry trees.
